1	The Division	sh Finandah han budik a	E let about		
1.	. The Punkwer	ek Köpeniek has built a Zone post office.	5 kW short wave	-	land) for
	the Seviet	Zone post office.			*
	the Soviet  Development	k Köpeniek has built a Zone post office. of the sonic depth ind of March 1954.			•
2.	the Seviet  Development by the end  A sea distr	Zone post office.  of the sonic depth ind of March 1954.  ess call sender and a s	licator for ships	probably will b	e completed
2.	the Seviet  Development by the end  A sea distr	Zone post office.  of the sonic depth ind	licator for ships	probably will b	e completed
2.	the Seviet  Development by the end  A sea distr and deliver  A 100 watt	Zone post office.  of the sonic depth ind of March 1954.  ress call sender and a sed to the Warnow shipps medium wave sender and	licator for ships les emergency record at Warnemünde, an 800 watt long	probably will beiver have been	e completed
2. 3. 4.	be Sevelopment by the end  A sea distrand deliver  A 100 watt delivered t	Zone post office.  of the sonic depth ind of March 1954.  ress call sender and a seed to the Warnow shippy medium wave sender and o the national shippard	licator for ships les emergency reco rd at Warnemünde, an 800 watt long at Stralsund.	probably will beiver have been :	e completed
2. 3. 4.	be Sevelopment by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kw m	Zone post office.  of the sonic depth ind of March 1954.  ress call sender and a sed to the Warnow shipps medium wave sender and	icator for ships ica emergency record at Warnemunde, an 800 watt long at Stralsund.	probably will beiver have been wave sender have	e completed
2. 3. 4.	Development by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW m the Seviet  A 20 kW med	Zone post office.  of the sonic depth ind of March 1954.  ress call sender and a sed to the Warnow shipps medium wave sender and to the national shippard edium wave sender for a ship Yury Bolgoruki and ium wave sender is bein	icator for ships ica emergency record at Warnendinde, an 800 watt long at Stralsund, range of 375 to has been install as manufactured for	probably will be eiver have been to wave sender have 600 kHz has been led in the ship.	e completed manufacture e been n built for
2. 3. 4.	Development by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW man the Seviet  A 20 kW med sender is n	Zone post office.  To the sonic depth indef March 1954.  The sess call sender and a sed to the Warnow shipps medium wave sender and to the national shippard addium wave sender for a ship Yury Bolgoruki and iwn wave sender is being to the stationary servi	icator for ships ica emergency record at Warnemunde, an 800 watt long at Stralsund, range of 375 to has been install ig manufactured fo	probably will be eiver have been to wave sender have 600 kHz has been led in the ship. Or Czechoslovakia apy six van-like	e completed manufacture e been n built for a. This motor cars
2. 3. 4.	be Seviet  Development by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW mand the Seviet  A 20 kW med sender is mand 5.2 ton hequipment p	Zone post office.  To the sonic depth indef March 1954.  Tess call sender and a sed to the Warnow shipps  medium wave sender and to the national shippard sedium wave sender for a ship Yury Bolgoruki and ium wave sender is being of for stationary services transformer alread robably will be used on	icator for ships ica emergency record at Warnenunde, an 800 watt long at Stralsund, range of 375 to has been install ig manufactured for ice, but will occupy has been mounted the Czech border	probably will be eiver have been to be a sender be	e completed manufacture e been n built for a. This motor ears cars. The
2. 3. 4.	Development by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW mand the Seviet  A 20 kW med sender is mand 5.2 ton hequipment plation was	Zone post office.  To the sonic depth indef March 1954.  The sess call sender and a seed to the Warnow shippy medium wave sender and to the national shippyard edium wave sender for a ship Yury Bolgoruki and iwn wave sender is being to the stationary services transformer alread	icator for ships ica emergency record at Warnenunde, an 800 watt long at Stralsund, range of 375 to has been install ig manufactured for ice, but will occupy has been mounted the Czech border	probably will be eiver have been to be a sender be	e completed manufacture e been n built for a. This motor ears cars. The
2. 3. 4.	be Seviet  Development by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW mand the Seviet  A 20 kW med sender is mand 5.2 ton hequipment p	Zone post office.  To the sonic depth indef March 1954.  Tess call sender and a sed to the Warnow shipps  medium wave sender and to the national shippard sedium wave sender for a ship Yury Bolgoruki and ium wave sender is being of for stationary services transformer alread robably will be used on	icator for ships ica emergency record at Warnenunde, an 800 watt long at Stralsund, range of 375 to has been install ig manufactured for ice, but will occupy has been mounted the Czech border	probably will be eiver have been to be a sender be	e completed manufacture e been n built for a. This motor ears cars. The
2. 3. 4.	Development by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW mand the Seviet  A 20 kW med sender is mand 5.2 ton hequipment plation was	Zone post office.  To the sonic depth indef March 1954.  Tess call sender and a sed to the Warnow shipps  medium wave sender and to the national shippard sedium wave sender for a ship Yury Bolgoruki and ium wave sender is being of for stationary services transformer alread robably will be used on	icator for ships ica emergency record at Warnenunde, an 800 watt long at Stralsund, range of 375 to has been install ig manufactured for ice, but will occupy has been mounted the Czech border	probably will be eiver have been to be a sender be	e completed manufacture e been n built for a. This motor cars cars. The
2. 3. 4.	Development by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW mand the Seviet  A 20 kW med sender is mand 5.2 ton hequipment plation was	Zone post office.  To the sonic depth indef March 1954.  Tess call sender and a sed to the Warnow shipps  medium wave sender and to the national shippard sedium wave sender for a ship Yury Bolgoruki and ium wave sender is being of for stationary services transformer alread robably will be used on	icator for ships ica emergency record at Warnenunde, an 800 watt long at Stralsund, range of 375 to has been install ig manufactured for ice, but will occupy has been mounted the Czech border	probably will be eiver have been to be a sender be	e completed manufacture e been n built for a. This motor cars cars. The
2. 3. 4. 5. 6.	Development by the end  A sea distrand deliver  A 100 wett delivered t  An 0.8 kw man the Seviet  A 20 kw med sender is n  A 5.2 ton hequipment plation was Magdeburg.	Zone post office.  Sof the sonic depth indef March 1954.  Tess call sender and a sed to the Warnow shippy medium wave sender and so the national shippard edium wave sender for a ship Yury Bolgoruki and ium wave sender is being of for stationary services transformer stread robably will be used on built last year for the	icator for ships ica emergency record at Warnemunde, an 800 watt long at Stralsund. Trange of 375 to has been install g manufactured force, but will occupy has been mounted the Czech border DDR and is now a	probably will be eiver have been to wave sender have been to 600 kHz has been led in the ship. Or Czechoslovakia apy six van-like and in one of the r. A similar sentationed at Burg	e completed manufacture e been n built for a. This motor cars cars. The nder instal , near
2. 3. 4. 5.	be Seviet  Bevelopment by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW m the Seviet  A 20 kW med sender is m A 5.2 ton hequipment plation was Magdeburg.	Zone post office.  Sof the sonic depth indef March 1954.  Tess call sender and a sed to the Warnow shippy medium wave sender and to the national shippard redium wave sender for a ship Yury Dolgoruki and ium wave sender is being to for stationary services transformer alread robably will be used on built last year for the	icator for ships ica emergency record at Warnemunde, an 800 watt long i at Straisund.  range of 375 to has been install ig manufactured for ice, but will occupy has been mounted the Csech border DDR and is now a	probably will be eiver have been wave sender have been something the ship. Or Czechoslovakia apy six van-like and in ome of the r. A similar sentationed & Burg	e completed manufacture e been n built for a. This motor cars cars. The nder instal , near
2. 3. 4. 5. 6.	be Seviet  Bevelopment by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW mand the Seviet  A 20 kW med sender is mand 5.2 ton mand the sender is mand the sender is mand the sender is mand to the sender is mand to the sender is mand the sender is mand to the sender is mand to the sender is mand to the sender is sende	Zone post office.  Sof the sonic depth indef March 1954.  Tess call sender and a sed to the Warnow shippy medium wave sender and so the national shippard edium wave sender for a ship Yury Bolgoruki and ium wave sender is being of for stationary services transformer stread robably will be used on built last year for the	icator for ships ica emergency record at Warnemunde, an 800 watt long i at Stralsund.  range of 375 to has been install ig manufactured for see, but will occupy has been mounted the Csech border DDR and is now a	probably will be eiver have been a wave sender have been a beeled in the ship. Or Czechoslovakia apy six van-like and in ome of the r. A similar sent a simi	e completed manufacture e been n built for a. This motor cars cars. The nder instal , near
2. 3. 4. 5. 6.	be Seviet  Bevelopment by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW mand the Seviet  A 20 kW med sender is mand 5.2 ton mand the sender is mand the sender is mand the sender is mand to the sender is mand to the sender is mand the sender is mand to the sender is mand to the sender is mand to the sender is sende	Zone post office.  Sof the sonic depth indef March 1954.  Tess call sender and a sed to the Warnow shippy medium wave sender and to the national shippard redium wave sender for a ship Yury Dolgoruki and iwn wave sender is being the test of the stationary services transformer alread robably will be used on built last year for the significant office through the Assistant Direction of the test of the services of t	icator for ships ica emergency record at Warnemunde, an 800 watt long i at Stralsund.  range of 375 to has been install ig manufactured for see, but will occupy has been mounted the Csech border DDR and is now a	probably will be eiver have been a wave sender have been a beeled in the ship. Or Czechoslovakia apy six van-like and in ome of the r. A similar sent a simi	e completed manufacture e been n built for a. This motor cars cars. The nder instal , near
2. 3. 4. 5. 6.	be Seviet  Bevelopment by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW mand the Seviet  A 20 kW med sender is mand 5.2 ton mand the sender is mand the sender is mand the sender is mand to the sender is mand to the sender is mand the sender is mand to the sender is mand to the sender is mand to the sender is sende	Zone post office.  Sof the sonic depth indef March 1954.  Tess call sender and a sed to the Warnow shippy medium wave sender and to the national shippard redium wave sender for a ship Yury Dolgoruki and iwn wave sender is being the test of the stationary services transformer alread robably will be used on built last year for the significant office through the Assistant Direction of the test of the services of t	icator for ships ica emergency record at Warnemunde, an 800 watt long i at Stralsund.  range of 375 to has been install ig manufactured for see, but will occupy has been mounted the Csech border DDR and is now a	probably will be eiver have been a wave sender have been a beeled in the ship. Or Czechoslovakia apy six van-like and in ome of the r. A similar sent a simi	e completed manufacture e been n built for a. This motor cars cars. The nder instal , near
2. 3. 4. 5. 6.	be Seviet  Bevelopment by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW mand the Seviet  A 20 kW med sender is mand 5.2 ton mand the sender is mand the sender is mand the sender is mand to the sender is mand to the sender is mand the sender is mand to the sender is mand to the sender is mand to the sender is sende	Zone post office.  of the sonic depth ind of March 1954.  ess call sender and a sed to the Warnow shippy medium wave sender and to the national shippy and the national shippy	icator for ships ica emergency received at Warnemunde, an 800 watt long at Stralsund.  range of 375 to has been install genufactured for ica, but will occup has been mounted the Czech border DDR and is now a	probably will be eiver have been a wave sender have been a beeled in the ship. Or Czechoslovakia apy six van-like and in ome of the r. A similar sent a simi	e completed manufacture e been n built for a. This motor cars cars. The nder instal , near
2. 3. 4. 5. 6.	be Seviet  Bevelopment by the end  A sea distrand deliver  A 100 watt delivered t  An 0.8 kW mand the Seviet  A 20 kW med sender is mand 5.2 ton mand the sender is mand the sender is mand the sender is mand to the sender is mand to the sender is mand the sender is mand to the sender is mand to the sender is mand to the sender is sende	Zone post office.  of the sonic depth ind of March 1954.  ess call sender and a sed to the Warnow shippy medium wave sender and to the national shippy and the national shippy	icator for ships ica emergency record at Warnemunde, an 800 watt long i at Stralsund.  range of 375 to has been install ig manufactured for see, but will occupy has been mounted the Csech border DDR and is now a	probably will be eiver have been a wave sender have been a beeled in the ship.
